

2019 PBS Training Workshops – A New Year with New Training Opportunities

It's a brand-new year and PBS is looking to make it one to remember! We will be implementing an array of workshops throughout the year, organized into two categories:

The 'Manager' Workshops

This series will be comprised of four condensed workshops that act as a fast-tracked version of our annual flagship event, the PBS Dealer Conference. Perfect for dealership managers, these workshops are designed to provide a better understanding of what our software has to offer and will give you the opportunity to ask our highly-trained staff your most pertinent questions and learn about what's new in the development of our software. Held in various regions across North America, the Manager Series is a great alternative for dealership managers who are unable to attend the Annual Dealer Conference in September.

Manager Workshop 1 – Milton, Ontario – February 2019

Manager Workshop 2 – Milton, Ontario – March 2019

Manager Workshop 3 – Vancouver, British Columbia – April 2019

Manager Workshop 4 – Halifax, Nova Scotia – May 2019

The 'New to v10' Workshops

Do you want to facilitate knowledge sharing among your staff to increase team efficiencies, but don't want to break the bank? If so, this series is perfect for your dealership! These workshops are designed for the new v10 user, including new employees or those who have recently installed with PBS or upgraded from Aristo. Content will include best practices, short cuts, and efficiencies all revolving around the basis day-to-day operations in the dealership. Hosted regionally at the Calgary office and new Milton office on a monthly basis, dealerships are encouraged to sign up for these workshops where different line staff members can participate in each session.
